OF
HOLIDAY LITE/STOR-IT-RITE

Sturdy HOLIDAY LITE/STOR-IT-RITE see-through Plastic Storage Box and lid measure 26 $\frac{1}{2}$ " H x 20 $\frac{1}{2}$ " W x 6" D, storage box inserts measure 25 $\frac{1}{2}$ " H x 19 $\frac{1}{2}$ " W x $\frac{1}{2}$ " D. Storage Box has 2 6" built-in 2 $\frac{1}{2}$ " apart rods that lets the 2 insert loops slide right in. Inserts have a total of 32 built-in $\frac{3}{4}$ " apart plastic hooks on each side and 2 built-in 2 $\frac{1}{2}$ " apart loops on inner top of insert as illustrated on the drawing. Holiday strand lights will zigzag from right top hook to left top hook then bringing back from left top to right in a zigzag pattern until all strand is placed on insert. Top half insert can be used for icicle lights giving them enough room to hang freely and the bottom half can be used for small, medium or large bulb light strands. You slide the insert in the storage box placing the 2 loops on the storage box rods. The process will then be repeated for additional inserts up to 10 inserts per storage box. You can also use the storage box with inserts to store and protect your garland, strands of beads or household extension cords. You would then snap the lid on the box for perfect tangle free storage with no more broken or missing lights. These inserts can be used for Christmas, Easter, Fourth of July, Halloween, Thanksgiving or any other holiday strand light. Makes hanging and storing your holiday lights fast, easy and neat, ready for your next holiday.
